Subject: RE: Collaborators Table Format

The preapplication should include one single collaborator table that lists the collaborators for all senior/key personnel. For the spreadsheet submitted via email this should be a single tab on a single Collaborator Excel file, with a single header at the top (following the template) and then one single list of all collaborators. For submission via PAMS that single list can then be converted to PDF and appended to the end of the pre-application.

Good morning--

How should the Collaborators Tables for each Senior Key Personnel (SKP) be included in the proposal and emailed?

1. When submitted through PAMS, should each SKP's lists be kept separated and concatenated and PDF'd or should each SKP's list be combined into 1 Table and PDF'd AND
