KR Proposal Number

I, the undersigned, certify that I have reviewed and am familiar with the University of Maryland (UMD) Policy on Intellectual Property (Policy), and specifically, its provisions governing UMD ownership rights, rights of inventors and authors to be so acknowledged and identified and to share in the distribution of revenue UMD earns from commercializing UMD-owned Intellectual Property (IP), and the right of UMD to seek appropriate IP protection for UMD-owned IP. In order for UMD to grant this Request, I hereby assign to UMD all my rights, title, and interest in any and all IP, whether patentable or not patentable, that I conceive, develop or create under this Project and agree to execute all documents and take any other actions as UMD may determine are necessary and reasonable to effect such assignment for UMD to implement this request.

I acknowledge that with the approval of this request, I may be waiving the following: the right to receive income, to use the IP in subsequent competitive research (if requesting the grant of an exclusive license), and/or to obtain the benefits of patent or copyright protection. I certify that I have no obligation to any third party, governmental or private, regarding the IP that is the subject of this Request which obligation conflicts with or could be construed to conflict with this request for waiver and assignment.
