Proposal Development

The Proposal Development module contains records of proposals that have been created for routing and submission. Users enter data in the Proposal Development module and are limited to the Department with which they have the appropriate rights.

This module is open to certain campus users based on specific need and is not open to general campus users as the data contained within this module may be sensitive or proprietary. Investigators listed on a proposal have access to view that record and certify the proposal. Departmental and College Approvers have access to view and approve the proposals.

Access to this module is provided at a unit level based on business needs. Once the proposal has been submitted to the sponsor, the proposal data in this module may not be edited. No data in the Proposal Development module are included in the Data Warehouse and thus are not included on any institutional reports.

Please note:

- **Personnel:** Investigators and Key Persons are in the same section. You can determine who gets UMD credit, regardless of role on the proposal.
- **Certification:** All UMD personnel (PI, Co-I, Multiple PI, Key Persons) must certify their own proposal BEFORE the proposal can be submitted for routing. This can not be delegated to another user, and it can be done at any point prior to submitting the award for approval.
- **NSF Science Codes:** NSF Science Codes are required. The PI provides the science code which is then added to the proposal on the Sponsor and Program Information section.

Kuali Research terminology

- **Cancel** means to “totally cancel”. If you do cancel a proposal accidentally you may copy it, but you cannot un-cancel the same proposal.

Browser Navigation

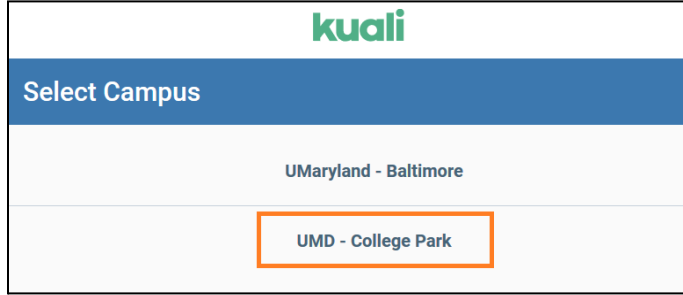

- DO NOT USE the browser navigation options when using KR Proposal Development. Using the browser navigation options will prevent KR from doing its normal saves and validation checks as you move through the proposal.

Accessing Kual Research

To access Kual Research visit: <http://kr.umd.edu>

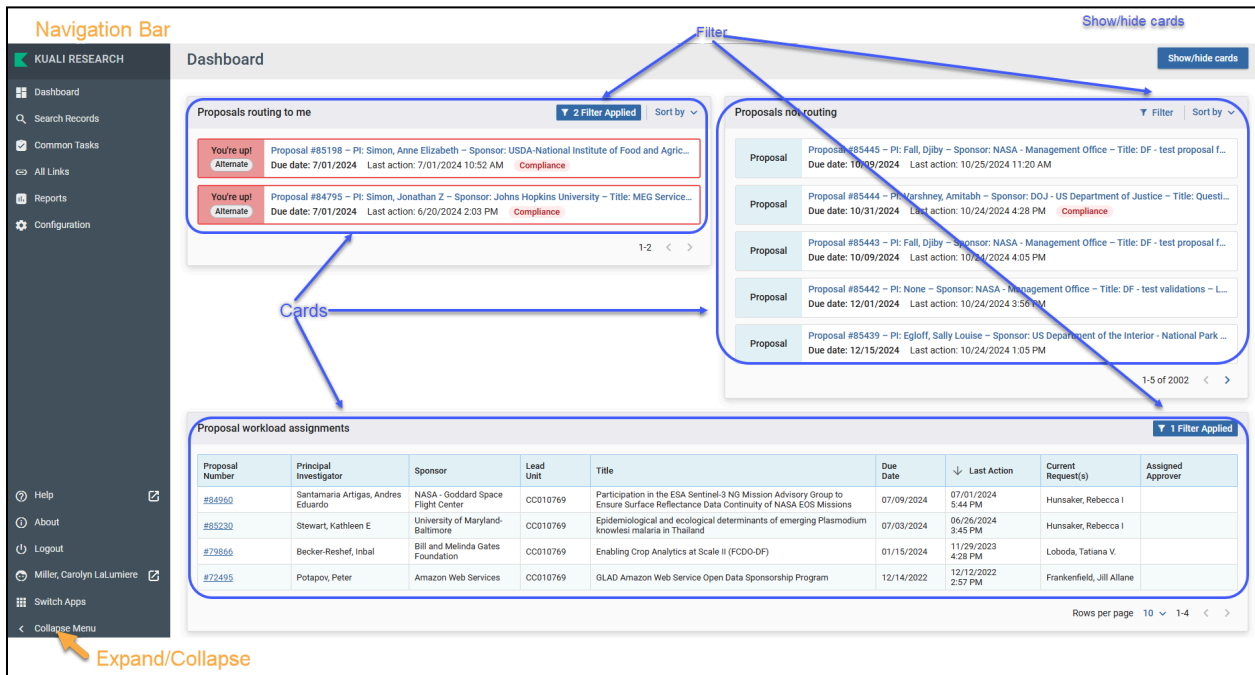

On the Select Campus page, choose "UMD - College Park."

You will be prompted to log in with your UMD directory ID and password via the Central Authentication Service (CAS).

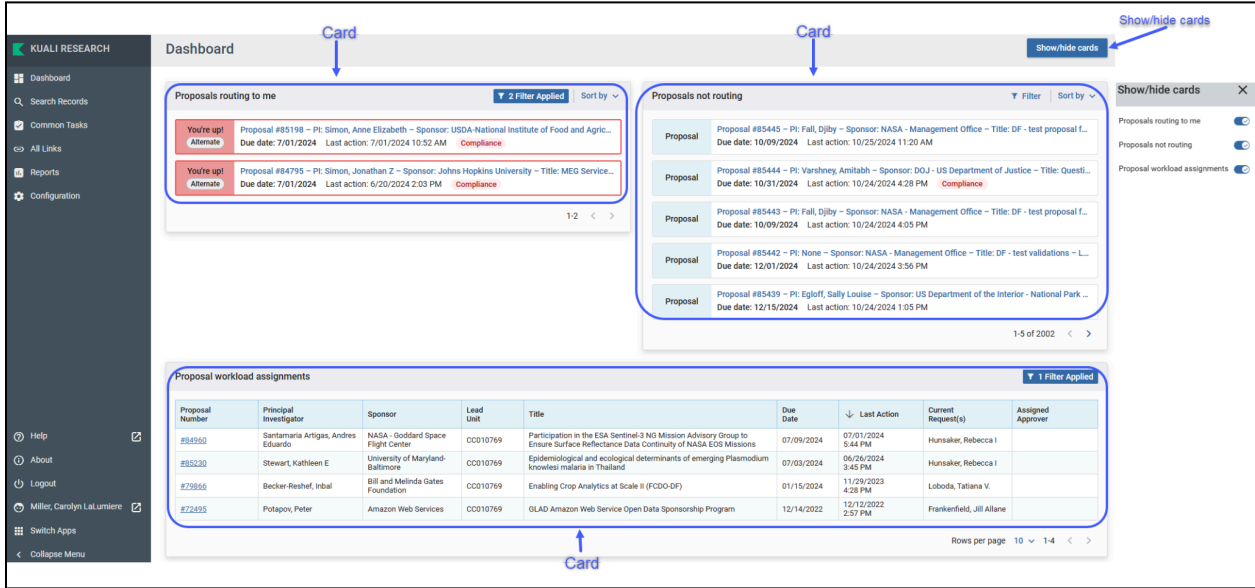

Dashboard Home Page

When you log in to Kual Research, the system will display the Dashboard Home Page, which contains Dashboard cards and an expandable navigation bar that allows users to access various resources in Kual Research.

Dashboard

After you log into Kualu Research, you will see the Dashboard Home page. There are three sections called “cards” presented, which are named “Proposals Routing to Me,” “Proposals Not Routing,” and “Proposal Workload” that all relate only to Proposal Development activities. You may elect to hide any cards you wish not to see by clicking on the “Show/Hide Cards” button and unchecking each.

Proposals Routing to Me Card

This card allows Proposal Development Approvers to easily monitor proposals that are queued up for their approval and watch for proposals they will soon have to approve. If you are not an approver, you will not see any records in this card and may choose to hide the card if preferred.

Proposals Not Routing Card

Proposal Creators may use this card to monitor which proposals they are still working on and haven't been submitted for approval yet. This card also allows Proposal Development Approvers to monitor which proposals have been created and not yet submitted for their approval yet. To open a proposal to view or edit, click on the entry. If you are a Proposal Creator with edit rights in the Proposal's Lead Unit, you will be placed in edit mode after clicking on the entry.

Proposal Routing Card Features

Both the “Proposals Routing to Me” and “Proposals Not Routing” cards have similar options that allow you to better utilize and tune the cards to better suit your needs.

Compliance Items Tag

If a proposal has a Compliance item listed, you may click on the “Compliance” Tag **Compliance** to get a quick view of each item and their status.

View Additional Records

You can view the total count of records there are in each card and navigate through the full listing by clicking on the directional buttons in the bottom right (< >).

Sorting Options

You have options to sort the entries in each card based on your own preferences:

- **Deadline Date** - Sort by the proposal deadline. This is a good option to prioritize proposals that will require approvals the soonest in the “Proposals Routing to Me” card or will need to be submitted for approval the soonest in the “Proposals Not Routing” card. (NOTE: If a deadline date wasn't added by the proposal creator it will be at the end of your list in both ascending and descending order)
- **Last Action Taken** - Sort proposals by the most recently approved or saved activity.
- **Principal Investigator** - Sort proposals by PI.
- **Proposal Number** - Sort proposals by Proposal Number.
- **Sponsor Name** - Sort proposals by Sponsor Name.
- **Step to Approve** - (Only for “Proposals Routing to Me”) Sort proposals by how many steps until they require your approval. This is also a good option that allows you to prioritize your view to show what proposals you may immediately act on to approve.

Proposal Workload Card

This card allows anyone with Proposal view access to see which proposals are still currently in the process of being approved across all routing stops. Unlike the “Proposals Routing to Me” card, you will see each proposal listed throughout the entire approval process once it has been submitted for approval. When viewing the “Current Request(s)” column you can observe who the current primary approver is (e.g. Chair, Dean, ORA Representative). The “Assigned Approver” field will always be blank. Once a proposal has been completely approved it will be removed from this card. If a proposal is recalled or returned, it will also be removed from the card until it gets routed for approval again.

Hints and Tips!

Refreshing

When you are returning to the Dashboard page after approving or taking action in a proposal you may not see those changes instantly reflected on the Dashboard page. The Dashboard page will refresh automatically every 5 minutes. If you would like to refresh your results sooner than that though you may click on the refresh button in your web browser. (Shortcut Keys: “F5” in Windows, “Command” + “R” on Macs).

NOTE: Clicking on the Dashboard button () does not refresh the page while you are currently on it.

Missing Updates?

If you performed an action between 3:30 a.m. and 5:30 a.m. ET, it may not be reflected on the dashboard or “Search Records” page results due to a KR job that runs overnight to re-index dashboard data. You may reference emails (which still get sent during this timeframe) or use the Common Tasks > “Search Proposal Development” page to retrieve and review your proposal. If the proposal is edited or approved, it will show back up on the dashboard and “Search Records” page results that day. Otherwise, the proposal will show up as expected after the nightly job runs again.

Searching for an Existing Proposal

You may find and open proposals from a number of different areas including within Dashboard Cards, the Search Records page, and the traditional proposal development search page.

Searching for an Existing Proposal using the Search Records Page

You can search for Proposals by Proposal Number or Doc Number for example by using the Search Records page. If you are having trouble distinguishing the correct record you may narrow your results by searching within specific categories like “Development Proposal Number” or showing additional columns.

Searching for an Existing Proposal from the Common Tasks

Click [Common Tasks] > click [Search Proposals] under the [Proposal Development]

This will open the Development Proposal Lookup screen. Typing in search variables in multiple fields acts as an AND operator. Click on the  to do a secondary lookup for that particular field.

On this search page you may optionally use search operators below to further limit your results.

Operator	Name	Example	Comment
*	Wildcard Any Char	Title: *apple*	Search for “apple” anywhere in the title, regardless of the number of characters
		Title: apple*	Search for “apple” at the beginning of the title
		Title *apple	Search for “apple” at the end of the title
?	Wildcard One Char	Title: ?ffect*	Search for a word that has any one character that precedes “ffect” (e.g. “affect” or “effect”) in the beginning of a title
(Vertical Bar)	OR	Lead Unit: *apple* *orange*	Search for “apple” OR “orange” in any order
&&	AND	Title: *apple*&&*honeycrisp*	Search for “apple” AND “honeycrisp” in any order
!	NOT	Title: *apple*&&!*tree*	Search for “apple” but not “tree”
>=	GREATER THAN OR EQUAL TO	Lead Unit: >=CC010005	Search records with Lead Unit Greater than or Equal to “CC010005”
<=	LESS THAN OR EQUAL TO	Lead Unit: <=CC010005	Search records with Lead Unit Less than or Equal to “CC010005”
>=&&<=	SERIES	Lead Unit: >=CC010782&&<=CC010828	Search records with Lead Unit from “CC010782” to “CC010828” (Just like combining Greater Than or Equal to and Less Than or Equal to)

NOTE: To ensure you get a complete set of UMD records returned, type in CC01* | CC09* in Unit ID. Due to the KR search algorithm and the results being limited to 500 records, leaving this field blank may cause KR not to return all records. There are some older UMD development proposals (2007-2015) that have UMCP as their lead unit. To include them in your broad search, type in UMCP | CC01* | CC09*

Creating a New Proposal

Creating a New Proposal

Click [Common Tasks] > click [Create Proposal] under [Proposal Development]

On the Create Proposal page, all fields with an asterisk (*) must be completed before you are allowed to save. Once data has been entered, click [Save and Continue]. If you click on Cancel, the system will return to the Welcome screen without saving any information you have typed.

Proposal Type (required): Please choose only from these proposal types:

- **New:** An application is submitted for funding for the first time.
- **Continuation:** A non-competing application for additional funding within the previously approved funding period.
- **Pre proposal:** as defined by the sponsor
- **Renewal:** (formerly called competing continuation) Previous years of funding for the project have elapsed. This proposal is competing for additional funding to continue the project.
- **Resubmission (for S2S):** (formerly called revision or amended application) Application previously submitted and reviewed by the sponsor but not funded. Used for System-to-System applications only.
- **Revision:** (formerly called supplement for NIH) – An application that proposes a significant change in an existing award; change in scope of work, etc

Lead Unit (required): If you have the rights to create proposals in more than one unit, a list of units will appear on the drop-down menu. Select the lead unit for the proposal.

NOTE: This can't be changed after a proposal is created; a new or copied proposal will need to be created if the lead unit needs to be changed.

Activity type (required): choose the correct award type from the drop-down box.

- **Research - Basic:** systematic study directed toward fuller knowledge or understanding of the fundamental aspects of phenomena and of observable facts without specific applications towards processes or products in mind.
- **Research - Applied:** research assessing and using some part of accumulated theories, knowledge, methods, and techniques for a specific driven purpose.
- **Research - Development:** systematic application of knowledge or understanding, directed toward the production of useful materials, devices, and systems or methods including design, development, and improvement of prototype and new processes to meet specific requirements.
- **Clinical Trial:** research studying the effectiveness of a particular device/therapy/drug with humans.
- **Training/Instruction:** projects, which incorporate teaching mainly.
- **Fellowship:** projects which provide a stipend to faculty or students in support of their undirected research or advanced study.
- **IPA:** Intergovernmental Personnel Assignments of personnel on temporary assignment to federal agencies.
- **Services/Other Sponsored Activities:** projects, which involve the performance of work other than instruction/training and research. Examples of such projects are health and community service projects.

Project Dates (required): Enter the start and end dates for the proposal.

Project Title (required): Enter the title of the proposal. This is limited to 200 characters for Grants.gov proposals. Some sponsors require shorter titles. Do not use special characters in the title, use “smart quotes,” or copy and paste text from other word processing programs such as MS Word.

Sponsor (required): Start typing the sponsor name or number. Alternatively, you may click the magnifying glass icon next to the field to search for the sponsor. Select the sponsor and click ok.

- **Proposal-Only Sponsors:** For some sponsors, we always will use “Proposal Only” when selecting them because we may not be sure which division may manage it if awarded. Please use this sponsor for these agencies.

Acronym	Sponsor Name	Sponsor Code
DOE	DOE-Proposal Only	202510
NASA	NASA-Proposal Only	205429
NIH	NIH-Proposal Only	012336
USDA	USDA-Proposal Only	208634

If you can't locate the sponsor, search for the Temp Sponsor in the Sponsor Code column (Temp Sponsor – ORA will review) or search for Sponsor ID: 207756. Email kr-help@umd.edu with the sponsor information and it will be created.

Click [Save and Continue]. Once it is saved, the Proposal Number will be assigned by Kualii.

Proposal Components and Navigation

After creating a proposal the Proposal Details screen is displayed. There are three parts of the screen - the Document Reference Information Box, the Proposal Sections Panel, and the tab bar for additional actions.

Document Reference Information Box (top right)

Shows information about the document for this version of the Proposal Development record.

S2S Connected: did/will this proposal be submitted directly to Grants.gov?

Initiator: directory ID of proposal creator

Status: status of the proposal - In Progress: not yet routed; Approval Pending: proposal is being routed

You can click on [more...] to see more information about the document. This contains more reference detail information for this development proposal. Click anywhere off the panel to close it.

Search Domain: Select Grants.gov (Research.gov is not yet available)

Package ID: Package Identifier (PKG#####) similar to the Opportunity ID, which allows you to retrieve a grant opportunity.

Opportunity ID: Funding opportunity number, which is the most common method for searching and may use many different formats depending on the sponsor (e.g. PAR-18-914, DE-FOA-0001986, USDA-NIFA-AFRI-006609, etc.).

Competition ID: For Opportunities that list multiple Competition IDs you may optionally include a Competition ID in your search to be more specific. This field cannot be searched on alone.

Assistance Listings Number: ALN (formerly CFDA) represents federal agencies and programs (##.###), searches here will retrieve those available opportunities.

Organization and Location Subsection

This section allows you to add Performance Sites and Subawardees if applicable to the proposal.

Applicant Organization Tab

The applicant organization cannot be changed in the proposal. Do not edit.

Performing Organization Tab

Performing organization: this should remain University of Maryland with the ORA address. Do not edit.

Performance Site Locations Tab

Performance Site(s) must be listed for any of the following instances identified for the project:

- an off-campus site where UMD work will take place for a minimum of three consecutive months
- a field work location

This tab is NOT for subawardees. The Address Book is used to lookup or create new entries that you may add to the Performance Site list.

- If an Address Book record already exists:
Click [Performance Site Locations] tab > Click [Add Performance Site] >
Search [address book] > Select the organization by clicking the box >
Click [return selected]

Create a New Performance Site in the Address Book

- If an Address Book does NOT exist, you may create one.
Click on **Add New Address Book** to create a new entry in the Address Book.

- Organization Id:
- Organization Name:
- Address:
- Federal Employer Id:
- Congressional District:
- DUNS Number:
- DUNS Plus Four Number:
- Human Sub Assurance:
- CAGE Number:
- DODAC Number:
- Number Of Employees:

At the bottom of the form are three buttons: "Close", "Clear Values", and "Search".

NOTE: The organization name is the official legal name and may not be what is commonly used. (e.g. UCLA's legal name is the Regents of the University of California). If you're having trouble finding an organization, try trimming down your search to one word with the * before and after.

Once you've found the desired organization, check the include box and click [return selected]. You may also click the Refine Search button to try searching again.

If the Organization you plan on issuing a subaward to is not listed in the Organization table, send an email with the Organization name, address, and URL to kr-help@umd.edu.

NOTE: if an organization's information changes while the proposal is "in progress," the information will be changed in the proposal. If the organization's information changes once the proposal's status is "approval pending" and beyond, the new information will NOT be reflected in the proposal. However, if the proposal is recalled/returned, the new organization information will become part of the proposal.

Key Personnel Section

All UMD employees listed on the proposal as Investigator or Senior/Key Person named on the project must be added to this section. When you add a person, you will select an “Employee” from UMD. Once you’ve searched and retrieved a person, you will need to assign a role. The roles of PI/Contact and PI/Multiple are available only when the proposal sponsor is NIH.

UMD employees added to the proposal as Investigators or Key Persons must complete a Certification for each proposal. UMD Investigators will automatically be included in Credit Split Allocation by default, while UMD Key Persons are not automatically included.

Create a Person in the Address Book

Before doing so consult kr-help@umd.edu to see if this is necessary. A person may be added to the Address Book only for the following reasons:

- A Non-UMD Person needs to be added to the proposal (Non-UMD people should not need to be listed on non-S2S proposals)
- A UMD Person is being hired and not showing up as an Employee yet **AND** PHR cannot issue a non-paid appointment.

Open [Key Personnel] section > Click [Personnel] subsection > Click [Add Personnel]

Click on [Add New Address Book] button to add a new person.

Review and Update Each Person's Other Attributes

Open [Personnel] subsection > Click on the [▶] to the left of the person's name to show tabbed information specific to that person. All UMD person data are loaded from PHR information. If a person's email address is incorrect for example, you may correct this field on a per-proposal basis in KR. In order to get the correct information to show up consistently and automatically in KR, the associated person would need to update their information in Workday.

Click on each of the person's tabs and ensure all information is accurate for this person. If any information is incorrect, you may change it.

Once confirmed click [Save]

The screenshot shows the top portion of a user profile page. At the top, there is a dropdown menu with the text "John C. Down (PI/Contact) (Certification Incomplete)" and a "Notify John C. Down" button. Below this is a horizontal navigation bar with several tabs: "Details", "Organization", "Extended Details", "Degrees", "Unit Details", "Person Training Details", and "Certification". The "Details" tab is currently selected.

Person Training Details Tab

- Not used at UMD.

Certification Tab

- Displays the certification. (See [Certify](#))

Certify

ALL UMD Investigators and UMD Key Persons MUST certify each proposal they are listed on. In KR, you can send a notification to the UMD Investigators and UMD Key Persons to inform them this proposal requires their certification. Non-Employees should not be listed on the proposal unless it's S2S. Consult kr-help@umd.edu if you believe this to be necessary.

SPONSOR	Role	UMD EMPLOYEE	NON-EMPLOYEE
Non-NIH	Principal Investigator	Must Certify	Not Allowed
	Co-I (UMB Routing Req'd)	Must Certify	Not Allowed
	Key Person	Must Certify	UMD person must certify, non-UMD person does not certify and should not be listed unless S2S.
NIH	PI/Contact	Must Certify	Not Allowed
	PI/Multiple	Must Certify	Not Allowed
	Co-I (UMB Routing Req'd)	Must Certify	Not Allowed
	Key Person	Must Certify	UMD person must certify, non-UMD person does not certify and should not be listed unless S2S.

Certify Notification

There are two ways to trigger a certification notification to be sent out to UMD personnel listed. The Notify button next to their name or the Notify All button.

Open [Personnel] section

- 1.) Click [Notify *NAME*] to send a message to that person's email as recorded in PHR that he/she needs to review the proposal and answer the certification questions. This method will send out a notification regardless of the status (complete or incomplete) of the certification.

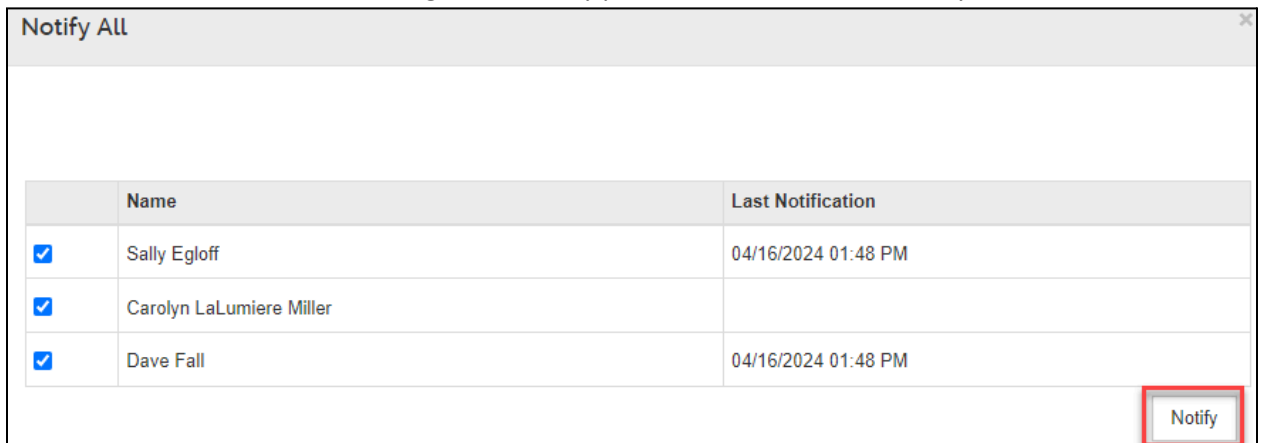

OR

- 2.) Alternatively, you can click on Notify All and then select which investigators to notify.

Check the boxes for selected investigators and key persons and click on the Notify button.

IMPORTANT: If you would like to resend a certification request after a person has already certified so that they may make a change to their answers, you must use the "Notify" button listed next to that person's name. The "Notify All" button will NOT resend a certification request if that person has already certified.

You will see a date timestamp next to their name once they have completed the certification questionnaire. You may click on the Certification tab of that person to see their recorded answers, or if they have not yet answered some or all of the questions.

NOTE: All UMD Personnel (investigators and key persons) need to certify, and they must perform the certification themselves. This may not be delegated to anyone else. This must be completed before the proposal can be routed for approval.

All individuals who have the “Include in Credit Allocation” box checked on the Person’s Details tab will be displayed here along with each of his/her units. Including an individual in Credit Allocation means that Credit/DRIF returns will be calculated based on this information AND this proposal and resulting awards will be included in standard and institutional reports for the person, department, and college. Not including someone in Credit Allocation means that the person will only be included on specific report requests for all Key Personnel and not official University reports.

If you are not seeing a person show up on the Credit Allocation, confirm that the person has at least one unit assigned. You can add units in the [Add Units to Personnel](#) section.

Questionnaire Versions and Updating

ORA updates questionnaires as the need arises. When this happens, any proposals in progress where a questionnaire had previously been answered will show an [Update Available] button to inform you that a newer version of the questionnaire is available. You will also see the [Update Available] button if you've copied a proposal that used an older version of the questionnaire. Please update the questionnaire if you see this button available. The [Update Available] button will be found on the right top corner of the Questionnaire Section on the previously answered Questionnaire.

- Click on the [Update Available]

- Two options will be available to select:

- **Copy the Answers**
If you select *“Copy the answers from the old version of questionnaire to the new one. Only questions that have been changed in the new version will have to be answered.”* your previous answers will be applied to the new questionnaire. Any new questions will need to be answered.
 - **Do Not Copy Answers**
If you select *“Do not copy answers from previous version of the questionnaire. Every question in the new version of the questionnaire will have to be answered.”* your previous answers will be lost, and you will have to answer all questions again.
- Once you've completed the updated questionnaire, you will see a green **(Complete)** next to the funded agreement. The questionnaire has been completed.

Compliance Section

The Compliance section lists special review items for the proposal.

Special Review Items available for use:

- Human Subjects
- Animal Subjects
- Biological Materials
- Boats Used in Research
- Chemicals
- Conflict of Interest
- e-Verify
- Export Control
- F&A Waiver
- Financial COI
- GDPR data
- Highly Toxic Gases
- Lab/Safety
- Open Access Blanket UM IP Waiver
- Proprietary Information
- Radioactive Materials - IONIZING
- Radioactive Materials - NON-IONIZING
- Recombinant DNA
- Scientific Diving
- Select Agent Toxins

Add compliance

Click [Compliance] Section > Click [+ Add compliance entry]

Complete the required fields > Click [Add Entry]. If you click Cancel, the system will return to the Compliance screen.

The form contains several fields: "Type:" with a dropdown menu showing "select"; "Approval Status:" with a dropdown menu showing "select"; "Protocol Number:" with a text input field; "Application Date:" with a date picker; "Approval Date:" with a date picker; "Expiration Date:" with a date picker; "Exemption #:" with a dropdown menu showing "Nothing selected"; and "Comments:" with a text area. At the bottom of the form, there are two buttons: "Add Entry" (blue) and "Cancel" (white).

Type: Select an appropriate compliance

Approval Status: always select Pending or Not Yet Applied for all types unless type is Human Subjects AND is exempt - select Exempt and state reason in Comments

Protocol No: leave blank

Comments: If the title of the protocol differs from the proposal title, enter the protocol title in the Comments.

Reminder: Some sponsors require investigators and senior/key personnel to complete a Financial Conflict of Interest disclosure prior to proposal submission, regardless of presence of potential conflict. If the proposal's sponsor or prime sponsor has this requirement, include the Financial COI item with the approval status set as Pending.

Sponsor requirements may change, but these often require FCOI disclosure prior to submission: Public Health Service (including NIH), NASA, NSF, and DOE.

Attachments Section

The Attachments section has individual tabs for Proposal, Personnel, and Internal attachments. Proposal and Personnel attachments will be submitted to the Sponsor for S2S proposals when the appropriate forms are included. Internal attachments are always used for departmental and ORA use. UMD does not use Abstracts (with exception noted below) or Notes. **The attachment file size is limited to 25 MB.**

Creating a Budget - Summary vs detail

- For S2S submissions, a detailed budget is required unless it's an NIH Modular Budget. Refer to the funding opportunity instructions to determine budget requirements.
- For non-S2S submissions, a summary budget is required.

Create a New budget

On the Proposals Sections menu (left) > Click on the [Budget] section.

This takes you to the Budget Versions page > Click on the [+ Add Budget] button.

The Create a Budget Version menu displays.

- Budget Name: Enter a description for your budget, this will come in handy if you create different versions of your budget to cover different scenarios. You cannot change the name of the budget or delete the budget after it is created.
- Detailed Budget or Summary?
 - Select “Start a Detailed Budget” for S2S Submissions
 - Select “Start a Summary Budget” for NON-S2S Submissions
- Modular Budget?
 - Select “Yes” if proposal is for a NIH and Modular Budget is Required and Select “Start a Summary Budget” above
- Click [Create Budget] Button. If you click on Cancel, the system returns to the Budgets screen and no data is saved.
- You cannot delete a budget. Only one budget can be marked “For Submission.” All others are ignored.

Budget Document

After creating a budget, the Budget Document Page will load.

Creating a Summary Budget

If your proposal is a non-S2S proposal, you will create a summary budget.

1. Configure Budget Settings

Click on “Budget Settings” in the top toolbar to ensure you have the correct configurations set for:

- On/Off Campus Flag
- F&A Rate Type

The screenshot shows a 'Budget Settings' form with the following fields and options:

- Project Start Date: 12/01/2019
- Project End Date: 11/30/2022
- Total Direct Cost Limit: 0.00
- Budget Status: Incomplete (indicated by an orange arrow)

- Exclude Subcontract F&A from Direct Cost Limit:

Buttons at the bottom: Apply Changes, Close

2. Configure Rates for F&A

If our institutional rates are being used on the project then no changes to the rates section are required. Please see [ORA's F&A Information page](#) for details on current institutional rates.

However, if the sponsor mandates a rate lower than our institutional rates (but greater than 0%) you will need to enter that value in the applicable rates column on the appropriate on/off campus rows. This will ensure the correct rate gets pulled into the Institutional Proposal when generated later. Also, be sure to include the appropriate documentation on the sponsor mandated F&A rate requirement in the attachment section of the proposal if an institutional rate is not being used.

NOTE: If a rate type of 0% is mandated by the sponsor then the F&A Rate Type of Other is used and already reflects 0% under applicable rates sections.

Periods & Totals Section

The Periods & Totals tab pre-populates with a row for each 12-month budget period, defaulting with the Project Start Date and End Date found back on the Proposal Details section. You may adjust the period boundaries here but cannot change the overall Initial Project Start Date or overall Project End Date, to do so you will need to return to the Proposal Details section and update the State and End dates there.

Confirm date boundaries are correct. Do NOT enter in amounts.

- **Add Budget Period:** If needed, you may insert a period in between the overall predefined project start and end dates using the [+ Add Budget Period] Button

Direct Cost, F&A Cost, and Cost Sharing

If this is an S2S Detailed Budget, do NOT enter in details for Direct Cost, F&A Cost, and Cost Sharing. These totals will accumulate here automatically as you enter line items to the detailed budget.

Cost Limit, Direct Cost Limit (optional): You may optionally set cost limits to alert you when you've exceeded predefined amounts if you wish.

⚠ This page has 2 warnings

- The Period 1 Cost Limit has been exceeded.
- The Period 1 Direct Cost Limit has been exceeded.

Rates Section

If our institutional rates are being used on the project, then no changes to the rates section are required. Please see [ORA's F&A Information page](#) for details on current institutional rates.

However, if the sponsor mandates a rate lower than our institutional rates (but greater than 0%), you will need to enter that value in the applicable rates column on the appropriate on/off campus rows. This will ensure the correct rate gets pulled into the Institutional Proposal when generated later. Also, be sure to include the appropriate documentation on the sponsor mandated F&A rate requirement in the attachment section of the proposal if an institutional rate is not being used.

NOTE: If a rate type of 0% is mandated by the sponsor, then the F&A Rate Type of Other is used and already reflects 0% under applicable rates sections.

Fringe benefits may be viewed but are not to be changed.

Inflation Tab: has only one rate

Click the [Inflation] tab > click the [Applicable rate] field > Enter the rate to be applied > click [Save]

Personnel Costs Section

The Personnel Costs Section contains two areas to manage Personnel Costs:

- Project Personnel: allows you to set salary, appointment types, and when to trigger inflation on salaries for each person. You may also add “To Be Named” personnel (GAs, Post Docs, FRAs, etc).
- Assign Personnel to Periods: allows you to choose which Personnel you would like added to each period, assign a cost element type, set % effort and % charged percentages.
-

Project Personnel Subsection

All Personnel that were added back on the actual Proposal will be listed here by default, but they do not all necessarily have to be used. You may add additional people such as To Be Named personnel or Employees and Non-Employees that were not originally listed on the proposal. This section is essentially a picklist that you will utilize later when assigning personnel to periods.

Once you've confirmed all people needed for the project budget are listed in the Project Personnel list, you will need to edit details for EACH person to set salary, appointment type, and when to trigger inflation on salary if applicable. Click on [Details] to edit the details for each person.

Job Code: Leave current job code assigned, if missing enter "AA000" placeholder

Appointment Type: This is the time interval for their Base Salary. Select appropriate type TMP (1 month), SUM (3 months), REG and 12M are the same (12 months).

Salary effective date: The date a person can start working and we can start charging salary. Usually matches the start date of the project.

Salary anniversary date: The date the salary will start to inflate; typically this is the start of budget period 2. If left blank, KR will apply inflation on July 1, the start of the fiscal year.

If you click on Cancel, the system returns to the Project Personnel screen.

Click the [Save Changes] button once complete.

Period	Salary
1	0.00
2	0.00

Salary By Period: By clicking on the Salary by Period Tab you may enter values that will display as the Base Salary field on certain S2S budget forms such as the R&R Budget. This is typically a cosmetic field and is not required unless explicitly stated in the funding opportunity instructions.

After each person has been set up in the Project Personnel section, you are ready to actually assign Personnel as needed for each project period.

Subawards Section

If your proposal has subawards, you will need to download the appropriate subaward budget form from Grants.gov, complete data entry, and import the form(s) into the Proposal Budget Subaward Section. Please perform this process for each funding opportunity to ensure you include the correct form and have a successful proposal submission.

Extracting the Subaward budget form

1. Click on the **[SEARCH GRANTS]** tab.

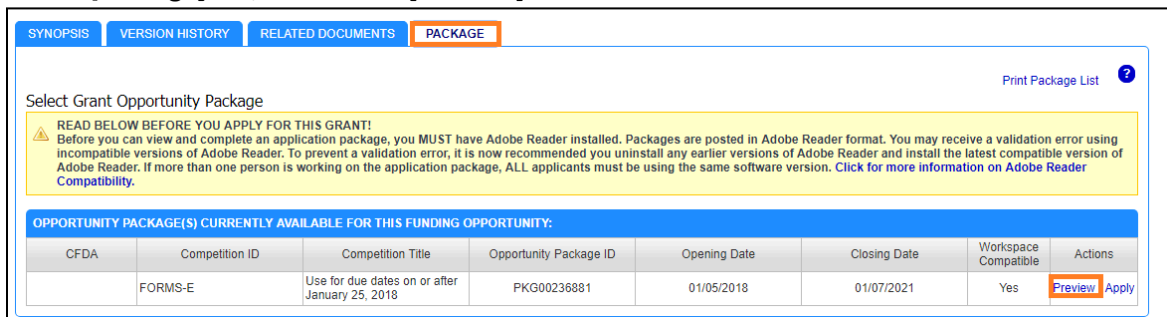

2. Enter the Funding Opportunity number that you wish to apply to in the **Basic Search Criteria: Funding Opportunity Number** field in Grants.gov

OR

Enter the Assistance Listings Number for the agency you wish to apply to in the **Basic Search Criteria: Assistance Listings Number** field in Grants.gov

3. Click on the **Title of the Application** to reach the synopsis page.
4. On the **[Package]** tab, click on the **[Preview]** link.

5. Copy the name of the subaward form that you need.

6. On the top ribbon, hover your mouse cursor over the **[Forms]** tab and click on **[R&R Family]**.

7. Look for the form (without the version # e.g. [1.4]) by using the [CTRL + F]. Make sure the version number is correct under the version number.

Grants.gov	R & R Subaward Budget Attachment(s) Form 5 YR 30 ATT	PDF	Schema	FID	1.4	4040-0001	10/31/2019

8. Download the form by clicking on the **[PDF]** link next to the correct form and version.
9. If you need an older version of the same form, then click on the FID link to access previous versions of that form.
10. Open the PDF and click on the **[Click here to extract the R&R subaward budget attachment]** button.

R&R SUBAWARD BUDGET ATTACHMENT(S) FORM

Instructions: On this form, you will attach the R&R Subaward Budget files for your grant application. Complete the subawardee budget(s) in accordance with the R&R budget instructions. Please remember that any files you attach must be a PDF document.

[Click here to extract the R&R Subaward Budget Attachment](#)

11. After you extract the subaward form and it opens, be sure to enter all necessary information then save it with a unique name.
- Make sure that the period dates in the Subaward Budget form are exactly the same as the period dates on the proposal.
 - If the Subaward Budget does not have any money for a given period, you must include the period with zero dollars in the budget.
 - When you add the budget justification to the subaward budget form, ensure you use a unique filename that is not used on any other attachments within your proposal (e.g. BudgetJustification_PennState.pdf)
12. Once you have completely entered all data onto the subaward form, you may upload it into KR.

- **Source Account:** This field is required and must be unique within each period. Enter one of the following:
 - **EXTERNAL:** If the source of cost share is an external source (not UMD)
 - **EXTERNAL1, EXTERNAL2,...:** If multiple external sources are the source of cost share within EACH period.
 - **SUB:** If a subaward has cost share funds in its budget
 - **UMD:** If the source of cost share is UMD
 - **UMD1, UMD2,...:** If multiple units are the source of cost share within EACH period.
- **Amount:** Amounts should represent the total cost share you've identified previously for each period.
- **Unit Details:** Key in or lookup the unit that will be responsible for paying for the Cost Share amount in a given period. If the cost share is from the EXTERNAL source, enter the unit responsible for collecting and tracking the cost share.

Creating a Modular Budget

If your proposal includes a Modular Budget for an NIH S2S proposal, you will create a summary budget and then a modular budget.

1. Create the Budget

Click on the Budget section in the left side toolbar and create the Budget by clicking the “+ Add Budget” button

When creating the budget:

- Enter the Budget Title (cannot be changed once created)
- Start a Summary Budget
- Select Yes for Modular Budget
- Click “Create Budget”

A screenshot of a 'Create a Budget Version' dialog box. It contains the following fields and options: 'Proposal:' with the value '37205'; 'Budget Name: *' with a text input field containing 'Modular Budget'; 'Would you like to create a detailed budget or enter a summary only?: *' with two radio button options: 'Start a detailed budget' (unselected) and 'Start a summary budget' (selected); 'Will this be a modular budget?: *' with two radio button options: 'Yes' (selected) and 'No' (unselected). At the bottom are 'Create Budget' and 'Cancel' buttons.

NOTE: The recommendation is to do a summary budget with your modular budget, but if you choose to do a detailed budget, you may sync the results to the modular budget.

2. Configure Budget Settings

Click on "Budget Settings" in the top toolbar to ensure you have the correct configurations set for:

- On/Off Campus Flag
- F&A Rate Type
- Modular Budget (Should be Checked)

Budget Settings

3. Configure Rates for F&A

If our institutional rates are being used on the project then no changes to the rates section are required. Please see [ORA's F&A Information page](#) for details on current institutional rates.

However, if the sponsor mandates a rate lower than our institutional rates (but greater than 0%) you will need to enter that value in the applicable rates column on the appropriate on/off campus rows. This will ensure the correct rate gets pulled into the Institutional Proposal when generated later. Also, be sure to include the appropriate documentation on the sponsor mandated F&A rate requirement in the attachment section of the proposal if an institutional rate is not being used.

NOTE: If a rate type of 0% is mandated by the sponsor then the F&A Rate Type of Other is used and already reflects 0% under applicable rates sections.

Rates

Verify the default rates set by your institution. You can override them if necessary by clicking the edit icon to the right of each row.

4. Create the Summary Budget

On the Periods and Totals Tab, populate the amount fields for Direct Costs and F&A Costs. If your project has Cost Sharing, enter amounts as needed. If there is Cost Sharing, fill out the [Cost Share Subsection](#) as well.

Period Start Date	Period End Date	Months	Total Sponsor Cost	Direct Cost	F&A Cost	Unrecovered F&A	Cost Sharing	Cost Limit	Direct Cost Limit	Actions

5. Create the Modular Budget

Once the Summary Budget is complete, click on the Modular Budget section button in the left toolbar. You will see a new navigation bar on the top left menu that allows you to navigate in and out of the modular budget:

	Returns you to the Proposal Development Modular Budget
	Takes you to the Dashboard Page (Not Currently Used)
	Returns you back to the Proposal Development Summary Budget
	Returns you back to the Proposal Development Record (Closes the Budget)
	Settings Page - Allows you to change the default configuration of Rounded to Unrounded. We recommend keeping the default set to Rounded.

You will be able to edit each period by double-clicking on the cell that you would need to modify.

- Enter amounts for items listed below, then move to other cells by either using the “Enter” or “Tab” key. Do NOT click off the field with your mouse, the value won’t save.
 - **Consortium F&A: Subaward F&A Cost**
 - FYI: Direct Costs Less Consortium F&A (Detailed Actuals) will come out as a negative amount because the system is pulling the data from the detailed budget which is empty. This will NOT affect the S2S form.
 - **Modular Requested**
 - **Indirect Cost Rate**
 - **Indirect Cost Base**

Click inside each field, enter a value, and hit "Enter" or "Tab"

Period 1
11/30/2019 - 11/29/2020

When you edit the first cell, you will be prompted to answer that the modular budget will stop automatically syncing. Click “Yes, make edits”

Once four items (Orange cells) are completed, other cells will be calculated automatically. Make sure to complete the items for each period.

When you are done with the Modular budget, you may click on the  on the menu to return to the Periods & Totals screen.

If you click on the  on the bottom left, you will be able to expand the menu items.

NOTE: You will notice that within the Modular Budget that the period dates are not properly displayed and reflect the day prior for start and end dates OR show an invalid date. This does NOT affect the submitted form and is a display issue we are working with Kualii to fix.

When you’ve completed the modular budget, we strongly recommend previewing the S2S Modular Budget from the S2S opportunity within your Proposal to ensure it’s displaying as you expect.

Finalizing the Budget

Complete the Budget Version

Before you can submit a proposal for approval, you must mark your budget Complete and mark a budget for Submission to Sponsor.

On any tab, click [Complete Budget] on the bottom of the budget screen

Mark as Submission to Sponsor

If this is the budget you will be submitting to the sponsor along with the final proposal, check the box for [Is this budget ready to be submitted to the Sponsor?] Cancel returns to the Budget screen.

Include Budget for Submission

On the Proposal Budget section you may mark budgets as Complete and Include for Submission. When you select Include for Submission, you are indicating that this is the budget that you want to submit along with your proposal.

Click the [Action] dropdown

Complete Budget: click if all changes have been made and the budget has been confirmed as correct

Include for Submission: click to include this budget version as the one you will submit

Once you have marked the Budget as “Include for Sponsor”, the row will turn green

Print the budget

If you want to print the budget, click [Action] and select the [Print].

Access Section

The Access Section allows you to give other Proposal Development users access to a proposal.

NOTE: This is useful for projects that **involve multiple units** who need to review the lead unit's proposal. The approvers for the Department Chair and College Dean's office have view rights by default, and there is no need to add them to the Roles unless an individual needs to have additional rights to modify the proposal contents. ORA staff can see all Proposal Development proposals, and there is no need to add or remove them from the list of users or roles.

Proposal Access Roles	Use Case
Most Commonly Used	
Aggregator Document Level	Full edit permissions, including budget rates, plus submit to review permission
Viewer Document Level	Permission to view all sections of a proposal (cannot create new or edit existing proposal details) NOTE: May be added before or after a proposal has been approved and submitted if needed
Less Commonly Used	
Aggregator Only Document Level	A more limited form of Aggregator. Aggregator Only can modify all proposal, budget, and attachment data. Can also submit a proposal document for review. Cannot send certification, recall, change rates, or change S2S linkages after a proposal is submitted for review
Budget Creator Document Level	Permission to create and edit budget versions, plus view proposal data
Budget Creator Only Document Level	Permission to create and maintain budgets in a proposal and view all other data in a proposal. Cannot modify rates in a budget
Narrative Writer Document Level	Permission to modify the data in a proposal development document, including the attachments. It provides view only access to the budget.

Summary/Submit Section

Validation

Once you believe your proposal has been completed, you should turn Data Validations on to verify there are no issues present before you submit for approval. This will generate a list of errors or warnings associated with the proposal if any issues are found. Data validations are limited to the rules that have been created in Kuali Research and will not check all possible issues such as those flagged in other submission systems. These issues must be addressed before routing.

Turning on the Validation

On the top proposal toolbar, click on the [Data Validation]

Click on the [Turn On] button in the data validation window.

Once the validation is on, you may return back to the same place and turn it off if needed.

If the proposal has an error(s), click on the [Fix It] link for each to be taken to the location where you can take corrective actions.

Error(s): you must make corrections and check Data Validation again to confirm the error has been fixed. You will not be allowed to submit a proposal if Data Validation is showing an error.

Warning(s): review to see if there are corrections that can be made. You will be allowed to submit a proposal with a warning.

If there are no errors, the window with [no errors or warnings present] will pop up.

Proposal Lock

As an aggregator, when you edit a proposal, you create a lock. The lock prevents other aggregators in your department from editing the proposal while you are working on it. This is called a “Pessimistic Lock” in Quali Research.

When you are finished editing the proposal, you must click the “Close” button at the bottom of the Proposal Development page in order to release the lock you created.

The screenshot shows the 'Kuali Research' interface for 'Proposal Development'. The main heading is 'Proposal: #85450' with PI: Christine Kang. Document info includes Doc Nbr: 6034004, S2S Connected: no, Initiator: Carolyn LaLumiere Miller (cmille14), and Status: In Progress. A navigation bar contains options like Data Validation (off), Print, Copy, Medusa, Hierarchy, Budget Versions, Link, and Help. The 'Proposal Details' section is active, showing fields for Proposal Type (New), Lead Unit (CC010728 - ARHU-History), Activity Type (Research - Basic), Project Dates (07/01/2025 to 06/30/2027), and Project Title. At the bottom, there are three buttons: 'Save', 'Save and Continue', and 'Close'. An orange arrow points to the 'Close' button.

If you close your web browser or web browser tab while editing a proposal, this does NOT release the lock so it's important that you click on the “Close” button in order to allow others to be able to edit.

What Happens if a Proposal is Locked?

If another aggregator attempts to edit a locked proposal development record, they will see an error that states “This document currently has a {Proposal ID}-PROPOSAL DEVELOPMENT lock owned by **LAST NAME, FIRST NAME** as of {Time} on {Date}.”

The screenshot shows the 'Proposal Details' page with an error message displayed in a red box: “This document currently has a 37974-PROPOSAL DEVELOPMENT lock owned by Kang, Christine as of 05:07 PM on 09/14/2017.”

How Do I Unlock the Proposal?

Note the name in the lock error message. This is the person that has the lock on the proposal.

- If the person in the lock error message is NOT you, you may contact that person and request that they either open the proposal in edit mode and then click the “Close” button or clear their “Pessimistic Lock.” If you cannot reach that person and it’s urgent, please contact kr-help@umd.edu.
- If this person is you, open the proposal for editing then click the “Close” button, and the lock should be released. You may alternatively clear the lock by clicking on the “Pessimistic Lock” link under Quick Links in either the “Unit” submenu or Kualu Research homepage.

Clear a Pessimistic Lock

- Click [Common Tasks] > click [Locks] under [Quick Links]

- Click the search button without any information on any field. This will show ALL your Locks.

A screenshot of the 'Pessimistic Lock Lookup' form. It features several input fields: 'Lock Owner Principal Name', 'Lock Descriptor', 'Generated Time From', 'Generated Time To', and 'Document Number'. At the bottom, there are three buttons: 'search' (highlighted with an orange box), 'clear', and 'cancel'.

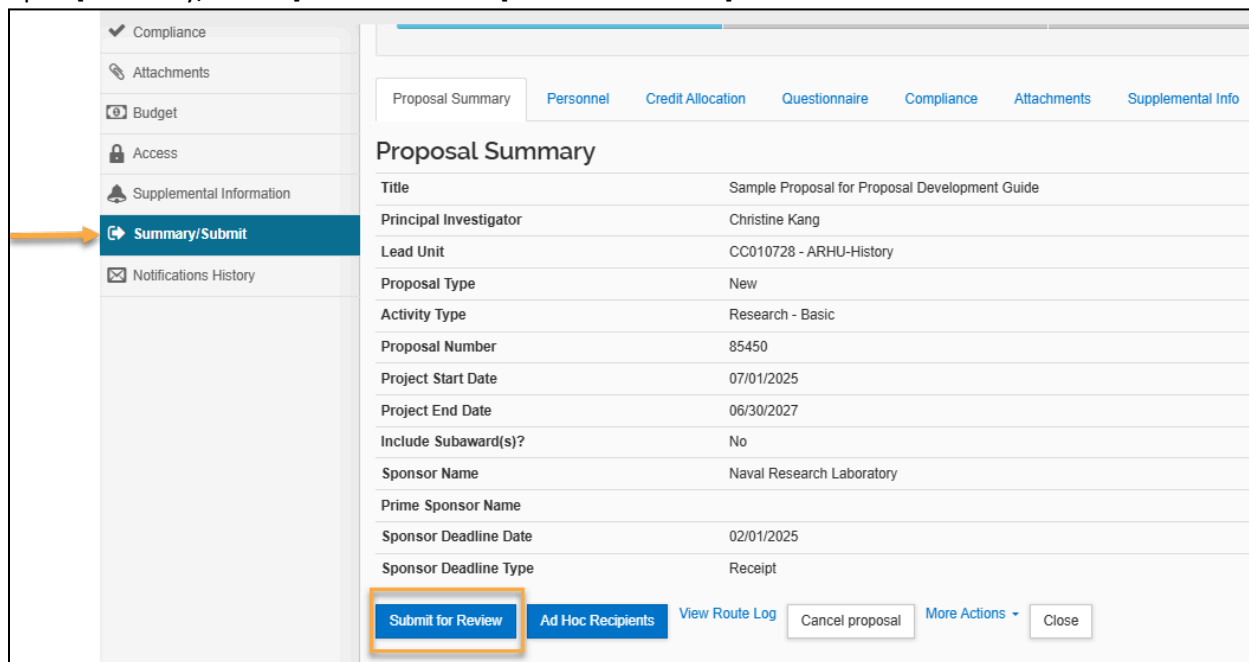

- Click the [delete] action next to the proposal that you would like to unlock.

Submit for Review/Approval

Once you've finalized your proposal and run validations, you are ready to submit the proposal for approval.

Open [Summary/Submit] Section > Click [Submit for Review] Button

 : This sign will show up if there is an unresolved issue on that particular section

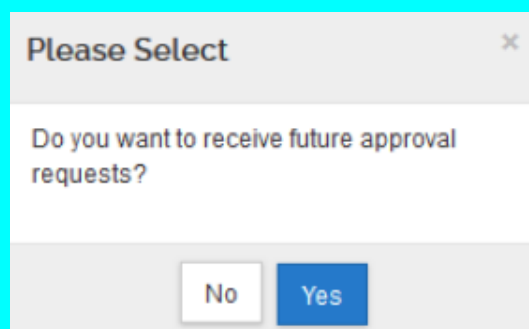

NOTE: The tracking line will change from blue to green then go into the routing

Gray: This shows the work to be done.

Blue: This shows where the proposal is currently located.

Green: This is Completed/Approved

NOTE: If you are an aggregator as well as a Primary Approver at any stop when you submit for review, a pop-up question will display "Do you want to receive future approval requests?" If you answer Yes, the approval routing will continue as it normally would. If you answer No, the system will automatically approve at all levels that you are the Primary or Secondary Approver on, and no additional approval notifications are sent to the aggregator. Notifications are sent to all other approvers on these stops to inform them that they have been approved.

NOTE: If you perform an action between 3:30 a.m. and 5:30 a.m. ET, it may not be reflected on the dashboard or "Search Records" page results due to a KR job that runs overnight to re-index dashboard data. You may reference emails (which still get sent during this timeframe) or use the [Common Tasks](#) > Search Proposal Development page to retrieve your proposal. If the proposal is edited or approved, it will show back up on the dashboard and "Search Records" page results that day. Otherwise, the proposal will show up as expected after the nightly job runs again.

Cancel the Development Proposal

Once you create a proposal, it cannot be deleted, but you may cancel the proposal. If you created a proposal that is no longer needed, you need to update the title to avoid using it in the future by entering a “Do Not Submit” at the beginning of the title. Also you click on the cancel proposal (button located in the Summary/Submit section), which ensures it can never be submitted or edited again. This will inactivate your proposal, and it cannot be undone. This will remove the proposal from the Proposal Not Routing Card. If you inadvertently do this, you will need to copy the proposal.

Data Override

While the proposal is being routed for approval, most of the proposal is locked down from edits. The Data Override feature allows you to edit a number of select fields.

Click [Data Override] on the top menu

A screenshot of the 'Data Override' modal window. It has a title bar with 'Data Override' and a close button. Below the title bar are two tabs: 'Override' (selected) and 'History'. The main content area is titled 'Override' and contains the following fields: 'Field To Edit:' with a dropdown menu showing 'select'; 'Current Value:' with a text input field; 'New Value:' with a text input field; and 'Comments:' with a text area. At the bottom right is a blue 'Create Override' button.

Recall Proposal

After you've submitted the proposal for routing, you may recall the proposal in order to make changes. Open the [Summary/Submit] Section.

Click [Recall] at the bottom of the page.

A dialog box titled 'Please Confirm to Continue' with a close button (X) in the top right corner. It contains a text input field labeled 'Reason for recall?'. At the bottom, there are two buttons: 'Cancel' and 'OK'.

Enter the reason for a recall > Click [OK]
[Cancel] returns to Proposal Development screen.

Copying the Proposal From Another Proposal

You may want to copy a proposal if you've selected the wrong lead unit, encountered an error during submission to the sponsor, or if you think it will save you time when creating a new proposal.

Click [Copy] in the top Proposal Toolbar > Edit any necessary fields accordingly > Click [Copy...]

A dialog box titled 'Copying this single proposal'. It contains several fields and checkboxes:

- Proposal: Yes
- Original Lead Unit: CC010728 - ARHU-History
- Lead Unit: * (dropdown menu showing 'select')
- Budget?: Yes. Include budget(s).
- Budget Version: (dropdown menu showing 'All Versions')
- Attachments?: Yes. Include attachments.
- Questionnaires?: Yes. Include questionnaires.

At the bottom, there are two buttons: 'Copy...' and 'Close'.

Lead Unit: Select the unit that will be the lead/managing unit

Budget YES? : click if you would like to include the existing budget

Budget version: Select the budget that's the appropriate version or all

Development Proposal FAQs

How can I change the lead unit?

Once you create a proposal, the lead unit cannot be changed. If the proposal has the wrong lead unit, you may copy the proposal and select the correct lead unit.

When I copy a proposal there are certain fields that are reset, what are those fields?

If you intend on using all the same data from the proposal you copied from then you will want to be sure to revisit a few areas on the new proposal that will have been reset. All UMD investigators and UMD Key Persons will have to recertify, the proposal tab attachments statuses will need to be checked and set to the final status where needed, and the budget will need to be marked as “Complete” and “Include for Submission” in the Budget section. If you copied a proposal to use on a separate project we suggest you check each area to confirm where you’ll need to make the necessary changes.

Can I delete a proposal?

Once you create a proposal, it cannot be deleted. If you created a proposal that is no longer needed, you may update the title to avoid using it in the future by entering a “Do Not Submit” at the beginning of the title. You may also cancel the proposal (button located in the Summary/Submit section), which ensures it can never be submitted or edited again. Please be sure to do one of those two actions if needed so that your Contract Administrator and fellow Aggregators or Approvers are aware that the proposal has been abandoned. Also keep in mind that a proposal may be copied if you unintentionally canceled it.

Why can't I find my UMD investigator or UMD Key Person in the employee search?

An investigator or key person must have either a paid or non-paid appointment with UMD. If the investigator or key person has not been hired under PHR yet, please consider which appointment type would be most appropriate and contact PHR. You may find more information about non-paid appointments here: <http://uhr.umd.edu/phr-manual/non-paid-affiliate-appts-honorariums/>. Once PHR processes the appointment, their person information should feed into Kualu Research that evening and be available to select the next day

A UMD Personnel didn't get the certification email even after I resent the notification, what do I do?

There are several possibilities for an investigator or key person not getting the certification email.

- 1.) The investigator or Key Person may have a filter set up which directs the certification email to trash or spam. Request the investigator or key person to see if the message may have ended up in spam, trash, or archived. An easy way to do this in Gmail is to search for the proposal number along with “**in:anywhere**”, which looks in a person’s spam, trash, inbox, and archived messages. If you don’t have the proposal number on hand you may add to the search “Certification is required”, which is part of the subject line.
- 2.) The investigator’s or Key Person’s email address may be incorrect in Workday. Check the email address listed in the Key Personnel > Personnel > Investigator section. Click on the Organization tab and check the email address. It should be in the format XXXXX@g.umd.edu. This is the email address the notification is sent to. If it is not correct, you cannot simply change it on the proposal. You must ask the investigator or Key Person to update the email address in Workday, which will then be reflected in Kualu Research the next day. You will need to then delete the person on the proposal, add them back, then click the “Notify” button to resend the certification request.

- 3.) An incorrect investigator or Key Person person record may have been selected. Make sure that you searched for the investigator or Key Person as an Employee (as opposed to a Non Employee), that you typed in 01 for Campus Code, and that the record selected is the correct person based at UMD. Also, if you get multiple results when searching a more common name (e.g. John Smith) be sure you are selecting the right person from the right department by looking carefully at the unit name, organization, email address, and User ID.

I need to add a Co-Investigator but see only an option for UMB?

You will notice when adding a person to a proposal that the Co-I role is displayed as “Co-I (UMB Routing Req'd).” This is actually still the same role you would use to add a UMD Co-I. Kual Research is used by both UMD and UMB campuses and UMB requires this label description to assist their users. Select “Co-I (UMB Routing Req'd)” if their role on the project is a Co-I.

How do I add more units to an investigator or key person?

To add multiple units to an investigator or key person, click on Key Personnel > Personnel > PI information > Unit Details. Under the Unit Details, click on the blue link labeled “[Lookup/Add Multiple Lines](#).” This will bring up the Unit Search menu. Search for the unit to be assigned. Click on the check box to the right of the unit and click on “Return Selected”. The system will then display the units assigned to the investigator or key person. If you selected the wrong unit, you can click on the Delete button to remove it.

What do I do if I see both UMD and UMB results when I search for a person?

When searching within Employees, if you see both a UMD and UMB person record with the same name and it is truly the same individual they may have a dual-appointment with both UMD and UMB. To avoid this, type 01 in the Campus Code on the search screen. You must always select the UMD person. The UMD person record contains the investigator’s or key person’s UMD directory ID under the User ID, and the unit number will begin with CC01 or CC09 followed by 4 digits. Selecting a UMB person may inadvertently trigger UMB validations and create issues certifying. If you do need to add a UMB person to a proposal, you will need to do so by searching for them as a Non Employee. If they do not exist, you may create an address book record and add them to your proposal. Please note that non-UMD personnel should not be required to add to a non-S2S proposal, please consult kr-help@umd.edu before doing so.

I need to add mPowering the State (MTS) as a unit for my personnel, but there are multiple MTS units shown when I search for it, which one should I use?

You must use the CC011087 : VPR-MPowering the State unit. The organization column will display “University of Maryland, College Park.” Be sure to add the UMD mPowering the State unit to all the UMD personnel listed on an MTS proposal.

Why am I not getting the right questionnaire (Funded, Non-funded, Data Use Agreement, or MTA)?

The type of questionnaire is determined by the Anticipated Award Type which is located in Basics > Sponsor and Program Information section. Be sure you are selecting the correct type as shown below.

Funded Questionnaire	Non Funded Questionnaire	MTA Questionnaire
Grant	Non-Disclosure Agreement	Material Transfer Agreement
Contract	Teaming Agreement	
Indefinite Delivery Contract	Equipment Loan	Data Use Agreement
Cooperative Agreement	Memorandum of Understanding	Questionnaire
Consortium Membership	Software License	Data Use Agreement
Other Transaction Agreement		
Intergovernmental Personnel		

Can I delete or rename a budget?

Once you create a budget, it cannot be deleted nor renamed. While a budget will remain with the proposal, you may leave it with a status of “Incomplete” and mark it “Do Not Use” in the Comments field of your Budget Settings as a reminder to you that you are abandoning that version of the budget. Also, only the budget marked as “Include for Submission” under budget actions will move forward to the submission process so leaving an older version of the budget will not cause any problems.

I have a proposal that does not need a budget (pre-proposal, non-funded agreement). How do I handle this?

You can do this one of two ways:

- 1.) Do not initiate the budget at all, and the proposal will have no budget. This will give you a warning, but you may submit with the warning.
- 2.) Create a summary budget and put zero dollars in the F&A and Direct Cost fields in the Periods and Total Section. Mark the budget complete and include for submission.

Why am I getting an export control validation error?

There are a number of questions in the Questionnaire that are relevant to the Export Control requirement in Compliance. If you respond yes to any of the questions below, you must add Export Control in Compliance with a “Pending” status.

Funded Questionnaire

- Are any export controls, physical restrictions on publications, or restrictions on foreign nationals indicated in the solicitation or in discussions with the sponsor?
- Are there technologies involved in this project which are likely to have a military application or other applications which could be considered to have national security implications?
- Will this project involve the shipment of materials outside of the US?
- Will this project require collaboration with any foreign entity?
- Will this project involve any information which may not be released to the public without sponsor approval? This may include, but is not limited to, sensitive research results, data sets, proprietary information, trade secrets, publications, and export-controlled information.

Non-Funded Agreement Questionnaire & Material Transfer Agreement Questionnaire

- Are any export controls, physical restrictions on publications, or restrictions on foreign nationals indicated in the solicitation or in discussions with the sponsor?
- Are there technologies involved in this project which are likely to have a military application or other applications which could be considered to have national security implications?
- Will this project involve the shipment of materials outside of the US?
- Will this project require collaboration with any foreign entity?
- Will this project involve any information which may not be released to the public without sponsor approval? This may include, but is not limited to, sensitive research results, data sets, proprietary information, trade secrets, publications, and export-controlled information.

Data Use Agreement Questionnaire

- Does this agreement, or data set, include Controlled Unclassified Information (CUI)?
- Does this agreement, or data set, include Classified data?
- Does this agreement, or data set, include Export/ITAR controlled data?
- Does this agreement, or data set, include Encrypted data?
- Are any export controls, physical restrictions on publications, or restrictions on foreign nationals indicated in the solicitation or in discussions with the sponsor?
- Are there technologies involved in this project which are likely to have a military application or other applications which could be considered to have national security implications?
- Will this project involve the shipment of materials outside of the US?
- Will this project require collaboration with any foreign entity?
- Will this project involve any information which may not be released to the public without sponsor approval? This may include, but is not limited to, sensitive research results, data sets, proprietary information, trade secrets, publications, and export-controlled information.

Why is KR System-to-System (S2S) less work than Grants.gov Workspace or NIH Assist?

If the Grants.gov opportunity is available to do in KR S2S, we recommend that you do so with the exception of NSF and NASA proposals. Some advantages of using KR S2S are:

- You create a proposal only once. If you use Workspace or Assist, you will have to create proposals with all of their associated data in both KR and another portal.

- You will do less data entry overall with KR S2S because many of the reused University of Maryland data objects (i.e. DUNS, Address, etc.) get auto-populated where needed.
- KR performs many data validations for NIH proposals, which are done within KR before submitting for approval rather than after it's received in Assist.
- When a proposal is submitted via S2S the initial submission status can be checked from within KR whereas you would have to go into Grants.gov separately to confirm.

What sponsors require proposals to be entered into their own portal and also into KR?

All proposals must be entered into KR for approval routing regardless of the sponsor. Any proposal that is not an S2S proposal in KR will require another submission method (email, external portal, etc.) in addition to being entered into KR. Only Grants.gov opportunities may be done as S2S in KR, however specifically for NSF and NASA proposals, we use their external portals (Fastlane, Research.gov, NSpires) for submission as well. Please check with your contract administrator if you are not familiar with a sponsor's portal or need guidance on the submission requirements.

How do I swap out an attachment on my proposal after it's been routed for approval?

You may swap out attachments on a proposal up until your Contract Administrator has completely approved and submitted the proposal. To swap out an attachment, in the Attachments section, click on the Details button. You may then choose a different file to replace the existing attachment by clicking on "Choose File". If the attachment was in a "Final" status state be sure to let your Contract Administrator know so they are aware of the change.

After I submit for approval or recall a proposal, I get an error stating that the proposal is locked by KR. How do I get rid of this lock?

This is a standard message that occurs after the proposal is submitted or recalled and can be ignored. To access the proposal after recalling it or submitting it, you must close the proposal, search for it, and then re-open it.

Can I change any fields on the proposal after it has been submitted for review?

Yes, there are some data fields that can be changed during approval routing. Use the Data Override tool located in the function bar on the development proposal screen. In the dropdown, you will see all of the data items that may be changed while it's being approved. If you need to change something that is not listed in the data override menu, then you will need to recall the proposal, which removes it from the approval routing process.

I am trying to edit my proposal and I get a message stating the proposal is locked by someone else. What should I do?

Contact the person who has the lock on the proposal and ask them to click the "Close" button at the bottom of the proposal screen. Simply closing the browser or browser tab when on the proposal does not close the proposal and leaves behind a lock that prevents others from editing it. If you cannot reach that person and need immediate edit access, send an email to kr-help@umd.edu, and someone can assist. Deleting a lock will cause any unsaved data to be lost so we want to be sure that the person who has the lock has an opportunity to save if needed.

How do UMD Personnel (investigators and key persons) certify a proposal?

UMD Personnel must certify each proposal they are named on before that proposal can be submitted for routing in Kualu Research. In those instances where the UMD Personnel is not the proposal creator, the proposal creator will send a notification from Kualu Research to the UMD Personnel. This notification will contain a link to the certification page for that UMD Personnel for that proposal.

Who approves proposals in Kualu Research?

Proposal Development proposals are approved at the Lead Unit, the Lead College, and ORA. At each approval stop, a primary and alternate approver(s) have been identified. Only one approval is needed at any stop to move the proposal to the next stop.

Who has access to the Proposal Development record?

Access to the Proposal Development module is limited based on roles within a unit or on a proposal, unlike the rest of Kualu Research. Proposal Creators have access to records he/she created and have the ability to add other viewers to that record. UMD Investigators and UMD key persons have view access to their Kualu Research proposals by default. Proposal Approvers have view access to those proposals which he/she needs to approve. Departments and Colleges can contact the KR Help Desk to make changes to the list of Proposal Aggregators and Proposal Viewers for a unit. Aggregators work with many investigators in a unit(s) to create proposals and Viewers have only view rights to all proposals within a unit/college.

Why is my proposal not showing up as expected on the Kualu Research dashboard?

You may notice some instances of proposals not showing up as expected in dashboard cards. Here is why and what you can do about it:

Why?

There is a nightly job in KR that runs from ~3:30 a.m. to 5:30 am that re-indexes all of what you see in the dashboard cards. So, as a proposal creator or approver, if any actions are done during that time (e.g. creating a new proposal, submitting a proposal for approval, approving, etc), you most likely will not see these actions reflected in the dashboard cards or the "Search Records" page results the following morning. Please note that this delay in reflecting changes is limited to the dashboard and the "Search Records" page results only but does not impact notifications. Emails will continue to be sent in a timely manner in accordance with the actions taken (proposal creation, approvals, certification requests etc.).

What can I do?

If you do find yourself in this situation, you may reference the email notifications sent from KR or retrieve the proposal from the [Common Tasks](#) > **Search Proposal Development** page. If a new action takes place that day (edit, approval, etc) on the proposal, then the dashboard cards and "Search Records" page results will be updated shortly thereafter as normal. If no actions are taken throughout the day on that proposal though, not to worry, the upcoming nightly job to re-index the dashboard will pick up the changes missed and be reflected the next day.

How do I grant others access to the proposal development record?

Proposal Development records are editable only to the Proposal Creator, a Department's Aggregators, and ORA eRA team. Records are viewable only by the proposal's investigators and those with Proposal Development View rights in a particular department.

To grant access to the Proposal Development record, this must be done while the proposal is still editable, so prior to routing.

- Open the proposal and go to the Access section.
- Enter search variables to find the person and click on Continue. Be sure to type in 01 in the Campus Code.
- Check the appropriate access level and Add Permission
 - Aggregator Document Level: Full edit permissions, including budget rates, plus submit to review permission
 - Aggregator Only Document Level: A more limited form of Aggregator. Aggregator Only can modify all proposal, budget, and attachment data. Can also submit a proposal document for review. Cannot recall, change rates, or change S2S linkages after a proposal is submitted for review
 - Viewer Document Level: Permission to view all sections of a proposal (cannot create new or edit existing proposal details)
 - Budget Creator Document Level: Permission to create and edit budget versions, plus view proposal data
 - Narrative Writer Document Level: Permission to add/replace/delete attachments, plus view proposal data
- Once the user has been granted access to the proposal, they will be able to search for the proposal in Proposal Development and will retain access until a Proposal Creator or Aggregator removes his/her access. You can send this person an email with the proposal number or with a permanent link to the proposal.
- To get the link to the proposal, click on the link icon in the top toolbar and copy the URL into an email.

How does adding an ad hoc approver/acknowledge/FYI during routing work?

Ad Hoc Routing and Approving

Proposal Development routing follows the default routing for all proposals. All proposals must be approved by the Lead Department, the Lead College, and ORA. Each Department and College has a list of approvers programmed into Quali Research. Changes to the list may be requested via email to kr-help@umd.edu

Adding in Ad Hoc recipients to this approval chain may be done from the Summary/Submit tab in Proposal Development. However, caution is recommended, especially if the recipient is not aware that he/she has been added to the process.

Type of Notification	Is the recipient required to take action to move proposal to next stop?	KR Default email notification setting to send a message?	Does Ad Hoc routing grant user view rights to proposal?
Approve	YES	YES	Yes, via Action List or link in email. A search in Proposal Development will not return the proposal unless user has been added via Access Panel prior to routing.
Acknowledge	NO	NO	
FYI	NO	NO	

Individual users may update their email notifications preferences in KR at any time. There is not a method for KR system administrators to investigate the preferences of an individual user.

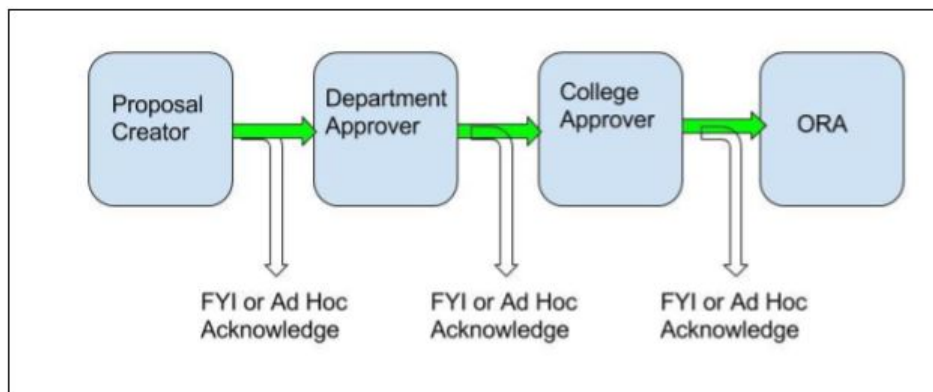

Be aware that an individual user may have filters set up in their email and these action list emails may be filtered into folders, spam, or trash. If you need to communicate something about your proposal, you should keep this in mind.

The ad hoc recipient will be inserted into the routing map wherever they have been added. Where the proposal is in the routing process when the ad hoc recipient is added will interrupt the original routing if the ad hoc recipient is added as an approver.

Adding in an Ad Hoc Approver will send the notification to the recipient's Action List in KR, and email if preferences are enabled, and routing will not continue until the Ad Hoc Approver user approves the proposal. In the above diagram, an ad hoc approver was sent by the Proposal Creator, once approved, the proposal was sent to Department Approvers who added an Ad Hoc Approver. Once this Ad Hoc Approver approved, the proposal was sent to the College Approvers who added in an Ad Hoc Approver. Once this Ad Hoc Approver had approved, the proposal was sent to ORA.

Ad Hoc Acknowledge or FYI

Adding in an Ad Hoc Recipient with FYI or Acknowledge will send the notification to the recipient's Action List in KR, and email if preferences are enabled, and routing will continue as normal. In the above diagram, an ad hoc notification was sent by the Proposal Creator, Department Approver, and College Approver. In this example, routing continues through normal channels and the proposal will reach ORA earlier for submission of the proposal because they are not waiting on additional approvals.

How do I get rid of old, abandoned, or unwanted proposals in my dashboard cards?

If you are certain there are no intentions to submit the proposals and are authorized to do so, you may cancel each proposal to inactivate them and hide them from view.

We recommend that you first prefix the title with a “Do Not Use” in the title, so it’s clear that you have abandoned it in the event you come across it in the future. The “Cancel” button is located on the Summary/Submit page of the proposal and can only be performed on proposals that are not routed for approval or already submitted.

NOTE: Canceling WILL inactivate your proposal, and you will no longer be able to edit it. If you cancel a proposal by accident, you can always copy the proposal to retrieve and edit it again.

What columns do you recommend when using the “Search Records” page to retrieve proposal development records?

On the search results page the Show/Hide Columns tool is used to add and remove columns and re-order their layout. Below are some recommendations, but feel free to experiment to find what works best for you. Also, remember you can still use the traditional proposal development search page accessible from the Commons Tasks page if that is your preference.

Will this project use biological materials? recombinant or synthetic nucleic acids; human pathogens; biological toxins; human blood; unfixed human tissue; human cell culture; unfixed tissue from non-human primates.	Biological Materials	ESSR Review
Will this project require the use of one or more of the following select toxins: e.g. Abrin; Botulinum neurotoxins; Short, paralytic alpha conotoxins; Diacetoxyscirpenol (DAS); Ricin; Saxitoxin; Staphylococcal enterotoxins (Subtypes A, B, C, D, and E); T-2 toxin; Tetrodotoxin?	Select Agent Toxins	ESSR Review
[If Yes] Will this project require the use of toxic or pyrophoric gases? Toxic gases have NFPA health hazard ratings of 3 or 4, or a rating of 2, if the gas lacks physiological warning properties. A pyrophoric gas is defined as having an autoignition temperature in air at or below 130°F (54.4°C)	Highly Toxic Gases	ESSR Review
[If Yes] Will this project require the application of registered pesticides by UMD personnel?	Chemicals	ESSR Review
[If Yes] Will this project require the use of controlled substances?	Chemicals	ESSR Review
[If Yes] Will this project require the use of explosive materials (as defined by the US Department of Alcohol, Tobacco & Firearms)?	Chemicals	ESSR Review
Will this project require the shipment or transfer of chemical, biological, or radioactive materials off-campus?	Chemicals	ESSR Review
Will this project require the use of a respirator by research personnel due to an airborne hazard not managed by engineering controls (e.g., use of chemical fume hood)?	Lab/Safety	ESSR Review
Will this project require SCUBA diving?	Scientific Diving	ESSR Review
Will this project require the use of boats?	Boats Used in Research	ESSR Review
[If Yes] Will a motorized boat be operated by UMD personnel/affiliate in relation to this project?	Boats Used in Research	ESSR Review

Question	Prop Dev Compliance Requirement	Additional Requirement(s)
I have conducted lobbying efforts related to this proposal.		Validation warning if Y
Is capital equipment required to be purchased for this project?		
Explanation : Capital Equipment is an article of nonexpendable, tangible property having a useful life of more than one year and an acquisition or total fabricated cost of \$5,000.00 USD or more per unit.		
[If Yes] Complete checkbox to agree to this statement. I affirm there is no comparable equipment available on campus for this project		
Is this proposal to a sponsor/prime which requires COI disclosure, including FCOI, to be completed before the proposal submission even if there is nothing to disclose?	If Y, add FCOI compliance item	
Explanation : Some sponsors, specifically Public Health Service (including NIH), NASA, NSF, DOE, and USDA-NIFA require investigators and proposal personnel responsible for the design, conduct, and reporting of this project to complete a Financial Conflict of Interest disclosure prior to proposal submission, regardless of presence of potential conflict . Other sponsors, including EPA, require that financial disclosures are updated during the period of the award, either on an annual basis, or as new reportable significant financial interests are obtained. UMB personnel must submit forms available at umaryland.edu/coi to fulfill this obligation. UMD personnel must submit a Conflict of Interest Disclosure at go.umd.edu/inTERP to fulfill this obligation.		
[If Yes] Complete select one checkbox: Disclosure has/will be completed. or Does not apply to proposal.		

Question	Prop Dev Compliance Requirement	Additional Requirement(s)
<p>Is this proposal to be submitted to a sponsor, either directly or as a subawardee to a Prime Sponsor, which has public access or open-source requirements (data or software) or specific data management/sharing requirements that would normally require a waiver of the University of Maryland Intellectual Property policy?</p>		
<p>Explanation : Award terms from Federal sponsors, (NIH, NASA, etc.) and Foundations (Bill & Melinda Gates, Andrew W. Mellon, Russell Sage, Gordan & Betty Moore, Alfred P. Sloan, etc.) include public access requirements to make publications and supporting data resulting from the award publicly accessible. This contradicts UM's Policy on Intellectual Property, unless Investigators have an approved IP Waiver for the project.</p> <p>UMB Blanket IP Waiver memo and process here: www.umaryland.edu/spa/policies-and-procedures/intellectual-property/ip-waiver-for-open-source---public-access/</p> <p>UMD Blanket IP Waiver memo and process here: ora.umd.edu/announcements/2023/blanket-ip-waiver</p> <p>When investigators intend to apply this, they must answer this question yes and agree to follow the process outlined in the referenced memo, including disclosing intellectual property, including software, developed under this project, to UM Ventures to release such UM IP under this waiver. If you are unsure whether these public access requirements apply please contact your ORA/SPA Contract Administrator.</p>		
<p>[If Yes] Complete select one checkbox: Yes and requesting Blanket Waiver Applies. or Does not apply to proposal.</p> <p><i>All investigators would be expected to answer this question in the same way.</i></p>	<p>If Y, and applicable, add Open Source Blanket IP Waiver compliance item</p>	<p>If Y, and applicable, answer Y on proposal questionnaire</p>
<p>Explanation : A Blanket IP Waiver is applied to those projects where the solicitation and/or sponsor/prime sponsor has public access or open-source requirements (data or software) or specific data management/sharing requirements which would normally require a waiver of the University of Maryland Intellectual Property policy. Intellectual Property, including software, developed under this project needs to be disclosed to UM Ventures to release such UM IP under this waiver.</p> <p>UMB Blanket IP Waiver memo and process here: www.umaryland.edu/spa/policies-and-procedures/intellectual-property/ip-waiver-for-open-source---public-access/</p> <p>UMD Blanket IP Waiver memo and process here: ora.umd.edu/announcements/2023/blanket-ip-waiver</p>		
<p>I have a real or potential conflict of interest related to this work or sponsor, as defined by the University System of Maryland Policy (III-1.11).</p> <p><i>All investigators would not be expected to answer this question in the same way</i></p>	<p>If Y, add COI compliance item</p>	<p>If Y, answer Y on proposal questionnaire</p>
