Getting Started

Logging In
Kuali Research is available from any web browser at http://kr.umd.edu

On the Select Campus page, click on “UMD - College Park”
You are required to log in with your Directory ID and Directory Password to access Kuali Research.

Kuali Research Home Screen

At UMD, we are currently using Proposal Development, Institutional Proposals, Awards, and Subawards. The other modules are not used at this time. This guide focuses on Institutional Proposals, Awards, and Subawards.
Kuali Research Dashboard

The Kuali Research Dashboard is the updated user interface for KR, which provides new tools to better manage and search for relevant records based on your preferences and action list. The Dashboard also provides access to all of the original full search tools and common menu items for each module.

Dashboard Home Page

When you log in to Kuali Research, the system will display the Dashboard Home Page, which contains Dashboard cards and an expandable navigation bar that allows users to access various resources in Kuali Research.

Dashboard Cards

There are three dashboard cards that all relate to Proposal Development. For users not involved in Proposal Development these cards will be blank and may be hidden by the end-user if preferred.

Collapse Menu

Collapse Menu (located in the lower-left corner) allows you to expand or collapse the navigation bar to display or hide the descriptions for each icon.
**Filter**

The filter allows you to limit the items shown in the dashboard card based on criteria you have selected. When you click on Filter, you will see a dropdown list of items for filtering.

Select the item you want to filter on and type in the date desired for that item. The filter is automatically added. You can click on Add a Filter to add an additional filter. To remove a filter, click on the x on the filter line.

**Show/Hide Cards**

The Show/Hide Cards button in the upper right corner allows you to show or hide specific cards.

NOTE: If you are involved in Proposal Development creation or approval and would like more information on these dashboard cards please see our Proposal Development resources and training opportunities on the ORA website.
# Navigation Bar

The Navigation Bar on the left allows you to navigate to various sections of Kuali Research.

Search Records Page

The Search Records page provides a comprehensive all-in-one search of Awards, Institute Proposals, Subawards, Development Proposals, and other records based on your search criteria. It is most useful when you need to search across multiple document types (Award, Institute Proposal, Subaward, etc.).

**NOTE:** The traditional full search tools are still available and useful when you want to search within each module (Award, Institutional Proposal, Subaward, Proposal Development, etc.). To utilize the full search tools, navigate to the Common Tasks page, and click on the search option under the appropriate module.

**How do I search?**
Type in your search criteria and click “Go” or press enter to initiate a search.

- You may type in one word or a combination of words.
- You may use the search operator “-” to remove specific values from your results.
- You may use double quotes for phrases or strings of text (e.g., “apple tree,” “301000-00001”).
- You cannot search multiple values of the same item simultaneously (e.g., account 5212345 and account 4301234).
- Keep in mind, when performing a search, it may return results that contain only a portion of that value (e.g., searching 320101 and will match with 1320101).

**Below are some examples of simple searches:**
Doing a broad search by name may result in too many results.

You can add the document type of the desired records in the search to help limit your results by module.

Try adding additional search terms in phrases and excluding what you don’t want with a “-”

Search for award numbers using quotes or removing dash (otherwise, the search will misinterpret “-”).

Search by the first 6 characters of an award family to return parent and children (-00001, -00002, etc.)

Searching by account number will return any awards and subawards funded by that account number.
Narrow Search by category

Narrow your searches by clicking on the “Search everywhere” drop-down to see a list of all the available searchable categories and select one. This will allow you to target which field you’d like to search within using specific values instead of searching across all fields. If you are getting lots of unwanted results, using the category limits here is highly recommended.

Once you choose the category, type in the desired search value then, click enter or “Go.”

You will now see that the search variable has been slotted below the search bar.

If you want, you may continue to narrow down your results further by adding additional categories. Just repeat the process of selecting a category, entering the desired value, and clicking “Go” or enter.

NOTE: If you’d rather not look through the categories, you may also filter the listing by typing keywords.
Show/Hide Columns

After you’ve performed a search, you will see a “Show/Hide Columns” button available, which allows you to select which columns you want to be visible in your search results. The button is located on the search results screen’s far-right and appears only after displaying your initial search results.

Adding Columns

If you check a column checkbox, it will be visible in your search results. By default, “Remember my choices” at the bottom of the list is checked, which will save the columns displayed but is limited to the browser and computer you are using.

You may manually reorder your results by clicking on the six dots by a field name and dragging and dropping to the desired location.

Quick Actions

If you click on “Quick Actions,” you can select or deselect all columns or restore the original defaults.

Sort Drop-Down

Clicking on “Sort” allows you to move all the checked columns together at the top for readability or sort A-Z, Z-A. The higher a column is on the list, the more leftmost it will be in your search results.
Multiple Rows for the Same Institute Proposal, Award, or Subaward

As ORA makes updates to records throughout the day on Institute Proposals, Awards, and Subawards, your search results may show the same item twice in two unique situations. Below are a few tips to help you decide which one would be best to view, but if you’re unsure, you can always do a full search in the appropriate module by visiting the Common Tasks page, which will show one result per record.

Currently Being Updated

If ORA is in the process of updating a record, you will see that one item has a Route Status of “FINAL” and one item has “SAVED.” You will want to view the current record in a “FINAL” route status in this case. (You can add Route Status as a column in Show/Hide Columns above your search results)

<table>
<thead>
<tr>
<th>Document Type</th>
<th>Principal Investigator</th>
<th>Sponsor Name</th>
<th>Document Number</th>
<th>Account Id</th>
<th>Award Number</th>
<th>Route Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Award</td>
<td>Doe, Jane</td>
<td>USDA-Agricultural Research Service</td>
<td>3200001</td>
<td>6200121</td>
<td>000789-00001</td>
<td>FINAL</td>
</tr>
<tr>
<td>Award</td>
<td>Doe, Jane</td>
<td>USDA-Agricultural Research Service</td>
<td>3610008</td>
<td>6200121</td>
<td>000789-00001</td>
<td>SAVED</td>
</tr>
</tbody>
</table>

Recently Updated and Finalized that Day

If ORA just recently updated a record that day, you may see two results that both have a “FINAL” Route Status. In this situation, you will want to open the higher of the two Document Numbers you see listed. NOTE: This is a temporary artifact after ORA finalizes an update. A nightly process cleans these duplicate entries up, and the next day there will be only one result instead of two.

Search Tips!

● Use the “Search Everywhere” dropdown to limit your results by category if too many items are listed. Narrowing down results with this flexible tool will allow you to perform targeted searches.
● In your search results, click on the Column Headers to sort any column in A-Z or Z-A order.
● Based on what your criteria are, you may want to change the columns that are displayed in your results to better suit your returned results via the Show/Hide Columns button.
● Use multiple words or a phrase with quotes in the “Search Everywhere” field to narrow your search down as needed. Phrases with quotations cannot be used in Category limits.
● Using the “*” as a wildcard to search is superfluous. You can enter a short string to simulate the same type of query within the search bar OR in a category. For example, searching “cano” will return results for “Canon”, “canopies”, “Canonical”, etc.
● Search results do not include canceled development proposals. Use the Common Tasks page to view the Proposal Development Full Search screen and retrieve a proposal that was canceled if needed.
● When searching by an award number, use the first six digits to pull all awards within a family, or leave out the dash, or enter an award number in quotes to pull results based on that single award.
● When searching for awards by account number, keep in mind some account numbers were reused in the past but only one would have an Active Status at any single time while all others are Closed.
Column Suggestions

After performing searches, you may feel that you are missing some key fields that would help you differentiate records from each other, or you may find it challenging to understand why you are getting specific results. Adding more fields to display in your search results with the “Show/Hide Columns” tool can help in successfully navigating your returned results. We have listed some suggestions below based on the document type. You can mix and match or use any of the other available fields to suit your needs better.

Common Task Search Techniques

On only the individualized search pages for each module accessible from the “Common Tasks” page, you may use the following techniques to perform searches. Typing in search variables on multiple fields will act as an AND operator. **NOTE: These do NOT apply to the all-in-one “Search Records” page.**

Clicking on the next to a search field will do a secondary lookup for that particular item. You may optionally use additional search operators below to further limit your results.

**Note:** To ensure you get a complete set of UMD records returned, type in 1?????? in Unit ID. Due to KR logic and the results being limited to 500 records, leaving this field blank may cause KR not to return all records.

**Note:** If you are on a Person LookUp/Search page, type in 01 in the Campus Code field to limit the search to UMD persons.
All Links

The All Links page allows you to access a large assortment of links which include common lookups for Sponsors, Organizations, and Address Book tables. It can also be used to access the same Kuali Research module links found on the Common Tasks page. All of the links are organized by category and contained in expandable panels. While all links are visible to every user, only users with authorized access will be able to view and edit certain records.

If you have an idea of what you are looking for, the easiest option may be to type a keyword into the “Search for a Link” field. It will auto-populate results based on the text you enter.

Quick Tip!

To access these common lookup tables simply type in their names in the “Search for a Link” field. These are also located under the Shared Across Modules and System Admin Panels.

- Sponsor
- Organization
- Address Book

Link Panels

You may alternatively look for a link manually within each panel using the Category title as a guide.

- To expand each panel and display the links click on the down icon.
- To collapse each panel and hide links in that section click on the up icon.
- You will notice as you expand each additional section that previous sections you opened will automatically be collapsed.

This module is open to campus users and does not contain any proprietary or sensitive information which may have been included in the scope of work or budget of the proposal.

Click on Common Tasks in the Navigation bar.

This will open the Common Tasks screen. Under Institutional Proposal, click on Search Institutional Proposals.

This will bring up the Institutional Proposal Lookup screen.
Using Kuali Research searching techniques, type in your search criteria and click on search. See Search Records Page for more information and techniques to get the most out of searching.

**Note:** To ensure you get a complete set of UMD proposals returned, type in 1?????? in Unit ID. Due to KR logic and the results being limited to 500 records, leaving this field blank may cause KR not to return all proposals.

**Tip:** students are included in person searches. To exclude students, type !N in the Employee Type Code field.
### Institutional Proposal Number Schema

The Institutional Proposal Number is assigned at the time of proposal submission to the sponsor. The proposal number consists of the 2 digit Fiscal Year, the 2 digit Fiscal Month (not calendar month), and a 4 digit Kauli Research generated sequential number. The Institute Proposal sequential number counter is reset each July 1 to indicate the new Fiscal Year (e.g. 20010223 - the proposal was submitted in FY20, the first FY month - July, and its sequential number is 0223).

Awards

The Award module contains records of agreements that have been made to UMD from an external funding source. Data in the Award module pulls forward from Institute Proposal, and ORA updates each record with data from the sponsor. An award consists of award documents for the parent account and all child accounts as well as a single time & money document.

This module is open to campus users, and data from this module feeds into the Kuali Financial System (KFS) for the tracking of expenditures on sponsored research accounts. Award attachments include the official award document from the sponsor, action requests from UM departments, and backup information for actions taken.

The Award module is composed of two types of documents - Award Documents and Time and Money Documents. The Award Document contains basic information about the award, sponsor, project personnel, and award attachments. The Time and Money Document contains the information about the start and end dates and obligated and anticipated funding for each individual KFS account of an award.

Click on Common Tasks in the Navigation bar.

This will open the Common Tasks screen. Under Award, click on Search Awards.

This will bring up the Award Lookup screen.
Using Kuali Research searching techniques, type in your search criteria and click on search. See Search Records Page for more information and techniques to get the most out of searching.

**Note:** To ensure you get a complete set of UMD awards returned, type in 1?????? in Unit ID. Due to KR logic and the results being limited to 500 records, leaving this field blank may cause KR not to return all awards.
Tip: students are included in person searches. To exclude students, type !N in the Employee Type Code field.

Search will return a results list at the bottom of the Lookup screen.

Subawards

The Subaward module contains records of agreements where UMD has an agreement with an external organization to do a portion of the work of a sponsored award. Data in the Subaward module pulls forward from the Award module, and ORA updates each record based on the individual subaward agreement.

This module is open to campus users, and some data from this module are entered into the Kuali Financials System by ORA to create the Purchase Order and pay the invoices approved by the department for work completed by the subaward organization. Subaward attachments include the subaward agreement and subaward action requests from the department.

Click on Common Tasks in the Navigation bar.

This will open the Common Tasks screen. Under Subaward, click on Search Subawards.

This will bring up the Subaward Lookup screen.

Note: To ensure you get a complete set of UMD subawards returned, type in 1?????? in Unit ID. Due to KR’s search algorithm and the results being limited to 500 records, leaving this field blank may cause KR not to return all subawards.

Tip: students are included in person searches. To exclude students, type !N in the Employee Type Code field.

Search will return a results list at the bottom of the Lookup screen.

Click on Open to view details of selected subaward.
